UtahStateUniversity®

Education changes you. It creates opportunity and opens doors.

Your problem will not be a lack of options, but that you have too many from which to choose.

**Y**ou are looking at one of the best Liberal Arts colleges in the West. Scholar teachers who are truly passionate about research and your future, will be leading your courses. Outside of class, you will have ample opportunities to engage and apply all that you are learning. These opportunities range from specific research projects with faculty, internships (international and domestic), as well as international experiences where you will conduct research, teach, and participate in a variety of humanitarian activities. The student experience in CHASS at USU is something that will last with you a lifetime.

Sincerely,  
Dean John C. Allen

# choose your path

"College is a time when students have time to explore new ideas, cultures, and languages, both from today and long ago. Such exploration broadens the mind, opens up new possibilities, and maybe challenges a hidden bias or two. That's what happens in our college." - Charlie Huenemann
